

EZY-AS UPDATE

RISUS NISI, LUCTUS AUGUE

Moore (UK) Ltd announces changes to Ezy-As

It's with great pleasure that Moore (UK) announces major changes to Ezy-As in the UK.

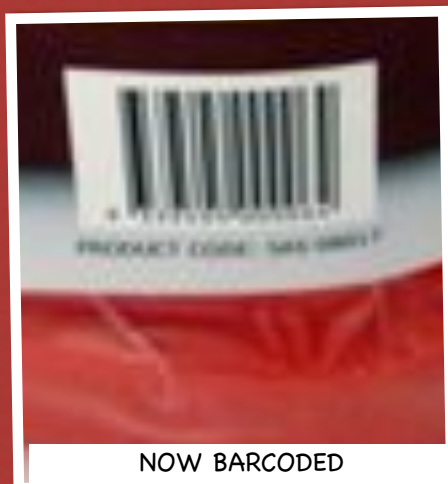

Although there are no actual changes to the product itself as "it's so EZY it just works", there are major changes in:

-  Packaging
-  Presentation
-  CE Marking

These changes have been initiated to help with retail sales and also the fact that from May 1st 2010 Ezy-As is now available on FP10 prescription route in England, Scotland, Wales and Northern Ireland.

The changes in packaging now include an instruction book inside the sleeve, this information is also available on the website along with instruction videos.

The product is now also CE Marked in line with European Standards and contains Product Bar Codes in conjunction with GSI Standards.

NOW BARCODED

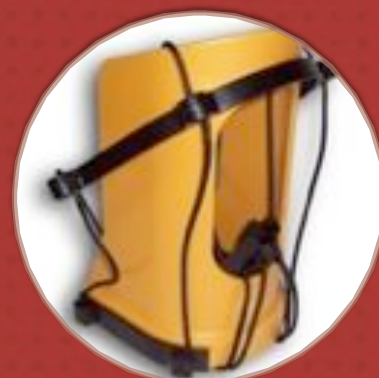

NOW CE MARKED

NEW OUTER PACKAGING

ITS SO EZY IT JUST WORKS

Now Available on Prescription (FP10) from May 1st 2010

Moore (UK) Limited are proud to announce that as from the 1st May 2010 that Ezy-As Applicators are now available on Prescription in England, Scotland, Wales and Northern Ireland.

The information you require to get these items through this route are in the panel to the left.

This process has meant that Ezy-As now has a CE Mark in line with European Standards and new Packaging and Bar Coding in line with GS1 Standards.

All the information you require is also on the web site:

www.ezyasabc.co.uk

The information in the table is for individual items only, however, for distributors and agents there is further information on case or pallet quantities, barcodes etc available on request by e-mail or by using the contact page on the website above.

Moore (UK) Limited would like to Thank You for your patience during this time in getting these items on Prescription.
